

## VIAGRA \$3.29 PER PILL

Canadian Pharmacy Online Meds Announce Launch of Viagra Pill **because the new Viagra for LIMITED TIME OFFER ONLY \$3.29 Per Pill**

The Canadian Pharmacy have announced the launch of their latest **line** , [Viagra](#), which has been touted as a natural solution to low libido in women.

After **variety** of **artificial** solutions recently being approved by the FDA, the media has been awash of reports of **the** [viagra](#) **and therefore the** possible problems these drugs can cause. Viagra suggests that **the problems** causing male low libido are completely different on different men **and thus** chemicals which simply stimulate physically **aren't an appropriate** solution.

In men **the difficulty** often relates to **male erectile dysfunction** which Viagra can remedy in many cases. Research shows that **the matter is far** more complicated in men **and wishes** to be addressed **during a** more holistic manner

Viagra's solution lies in addressing the causes of low libido as **against** the symptoms. The key ingredients include essential minerals which the body **must** function correctly.

In addition mild stimulants **to scale back** tiredness which **for several men is that the** actual issue.

During clinical trials [Viagra](#) has amazed everyone how well a natural solution has performed. Men have reported feeling **far more** alert and enjoying the return to a healthy sex life.

As a side effect **many men having the ability** to enjoy other area's of life more too.

The number **of men** that suffer from lack of libido **is** very high and the cost of Viagra Pill is quite expensive. Time has shown how effective Viagra proves to be as more reviews are shared by both men and women, but **thus far** the natural solution looks very promising and has already been earmarked by **a number of** the leading chemists **for his or her** Autumn product ranges.

## [Sildenafil Citrate Generic or Brand Viagra Pill?](#)

“Brand-name medications are not always better. Many of them are highly expensive,” says Dr. Niteesh K. Choudhry, professor of medicine at Harvard Medical School.

He is also the executive director of the Center for Healthcare Delivery Sciences at Brigham and Women’s Hospital.

As a result of this high cost, some people may skip doses or not take a drug at all because they just can’t afford it. In this way, generics may be a clear winner.

In many states pharmacists are required to provide you with the generic version of the medication, unless your doctor specifies otherwise.

It's estimated that if more prescribers substituted generic drugs spending could drop substantially, as much as \$5.9 billion by some estimates, says Dr. Choudhry.

In addition, there is really no hard proof at this point that generic medications are any less effective. These drugs are heavily regulated, which can give you some assurances about quality.

### **RESEARCH SHOWS NO-NAME BRAND MEDICATION SAVES YOU MORE**

While researchers will likely continue to look into the performance of generic vs brand-name drugs, bulk of research out there shows that taking the generic drugs not only saves you money, but also provides you with medication just as effective as the original.

That said, if you do switch to a generic version of your medication and notice new or worrying symptoms, it's definitely something to bring up with your doctor.

### **FREQUENTLY ASKED QUESTIONS ABOUT SILDENAFIL**

#### **Will I become dependent on ED medications?**

There is no evidence to support that you can become dependent on ED medications if taken as prescribed by your doctor.

It is usually recommended that you do not take multiple medications at the same time each day, however you must consult with your physician for more information.

#### **How long will [Sildenafil](#) stay in my system?**

Average time varies with each individual however studies have shown 2-3 hours until it leaves the system, and possibly 5-6 hours depending on your metabolism.

#### **What are the common side effects of Sildenafil?**

Please see the drug safety description for list of possible side effects.

#### **Can I order Sildenafil citrate without a prescription?**

Unfortunately not. However, you can get a prescription for Sildenafil by speaking with your medical or health care practitioner.
