

## FEMALE VIAGRA

Canadian Pharmacy Online Meds Announce Launch of Little Pink Pill Heralded **because the** new Viagra **for ladies**

The Canadian Pharmacy have announced the launch of their latest **line** , [Female Viagra](#), which has been touted as a natural solution to low libido in women.

After **variety** of **artificial** solutions recently being approved by the FDA, the media has been awash of reports of **the feminine** viagra **and therefore the** possible problems these drugs can cause. Female Viagra suggests that **the problems** causing female low libido are completely different than that of men **and thus** chemicals which simply stimulate physically **aren't an appropriate** solution.

In men **the difficulty** often relates to **male erectile dysfunction** which Viagra can remedy in many cases. Research shows that **the matter is far** more complicated in women **and wishes** to be addressed **during a** more holistic manner

Femagra's solution lies in addressing the causes of low libido as **against** the symptoms. The key ingredients include essential minerals which the body **must** function correctly.

In addition mild stimulants **to scale back** tiredness which **for several** women **is that the** actual issue. Finally **a robust** aphrodisiac (Korean Ginseng) is leveraged **to finish** Female Viagra's "Trifecta" of natural components.

During clinical trials [Female Viagra](#) has amazed everyone how well a natural solution has performed. Women have reported feeling **far more** alert and enjoying the return to a healthy sex life.

As a side effect **many ladies having the ability** to enjoy other area's of life more too. **the foremost** recent pharmaceutical **choice to** hit the market was Flibanserin but unfortunately the drug simply isn't suitable **for several** women.

The number **of girls** that Filbanserin may **assistance is** very limited and excludes women who are post menopause among many others. Time will tell how effective Female Viagra proves to be as more reviews are shared by women using it, but **thus far** the natural solution looks very promising and has already been earmarked by **a number of** the leading chemists **for his or her** Autumn product ranges.
